

# PORTLAND'S SUSTAINABILITY

SERIES

## Film Screening and Discussion

Portland's Sustainability Series is pleased to host a screening of **Sacred Cod: The Fight for a New England Tradition**. **Sacred Cod** is a feature-length documentary that captures the collapse of the historic cod population in New England, delving into the role of over-fishing, the impact of climate change, the effect of government policies on fishermen and the fish, and the prospect of a region built on cod having no cod left to fish.

Join Coastal Enterprises Inc., Camden International Film Festival, Maine Coast Fishermen's Association, Southern Maine Conservation Collaborative, The Nature Conservancy, and Working Films for this free screening and discussion with local experts to learn more about the fight for this New England Tradition.

Wednesday, August 23 | 6:30-8:00pm
